2026 Holiday Gifting Guide

Welcome to Imprint Engine's 2026 Holiday Gifting Guide:

80+ pages of gifts worth keeping, all backed by our global brand engine (so they'll actually show up right).

The best holiday programs aren't the ones with the biggest budgets. They're the ones that started early. Early means first pick of inventory, better pricing, time to get the details right, and a December where nothing is on fire. It also gives you room to clear the bar that actually matters now.

People hold on to gifts that feel retail instead of promotional: better materials, quieter branding, packaging they don't toss, and a say in what they get.

So we built this year's lineup around one question. Would they keep it if nobody sent it? Inside you'll find apparel, tech, drinkware, consumables, and home goods for employees, clients, events, and everyone in between, with real people and owned infrastructure behind every page. Plus, a plan that makes giving the fun part.

So start flipping. Your December self will thank you.

Remember that plan? This is it.

Send one link. Let them pick. Ship anywhere in the world.

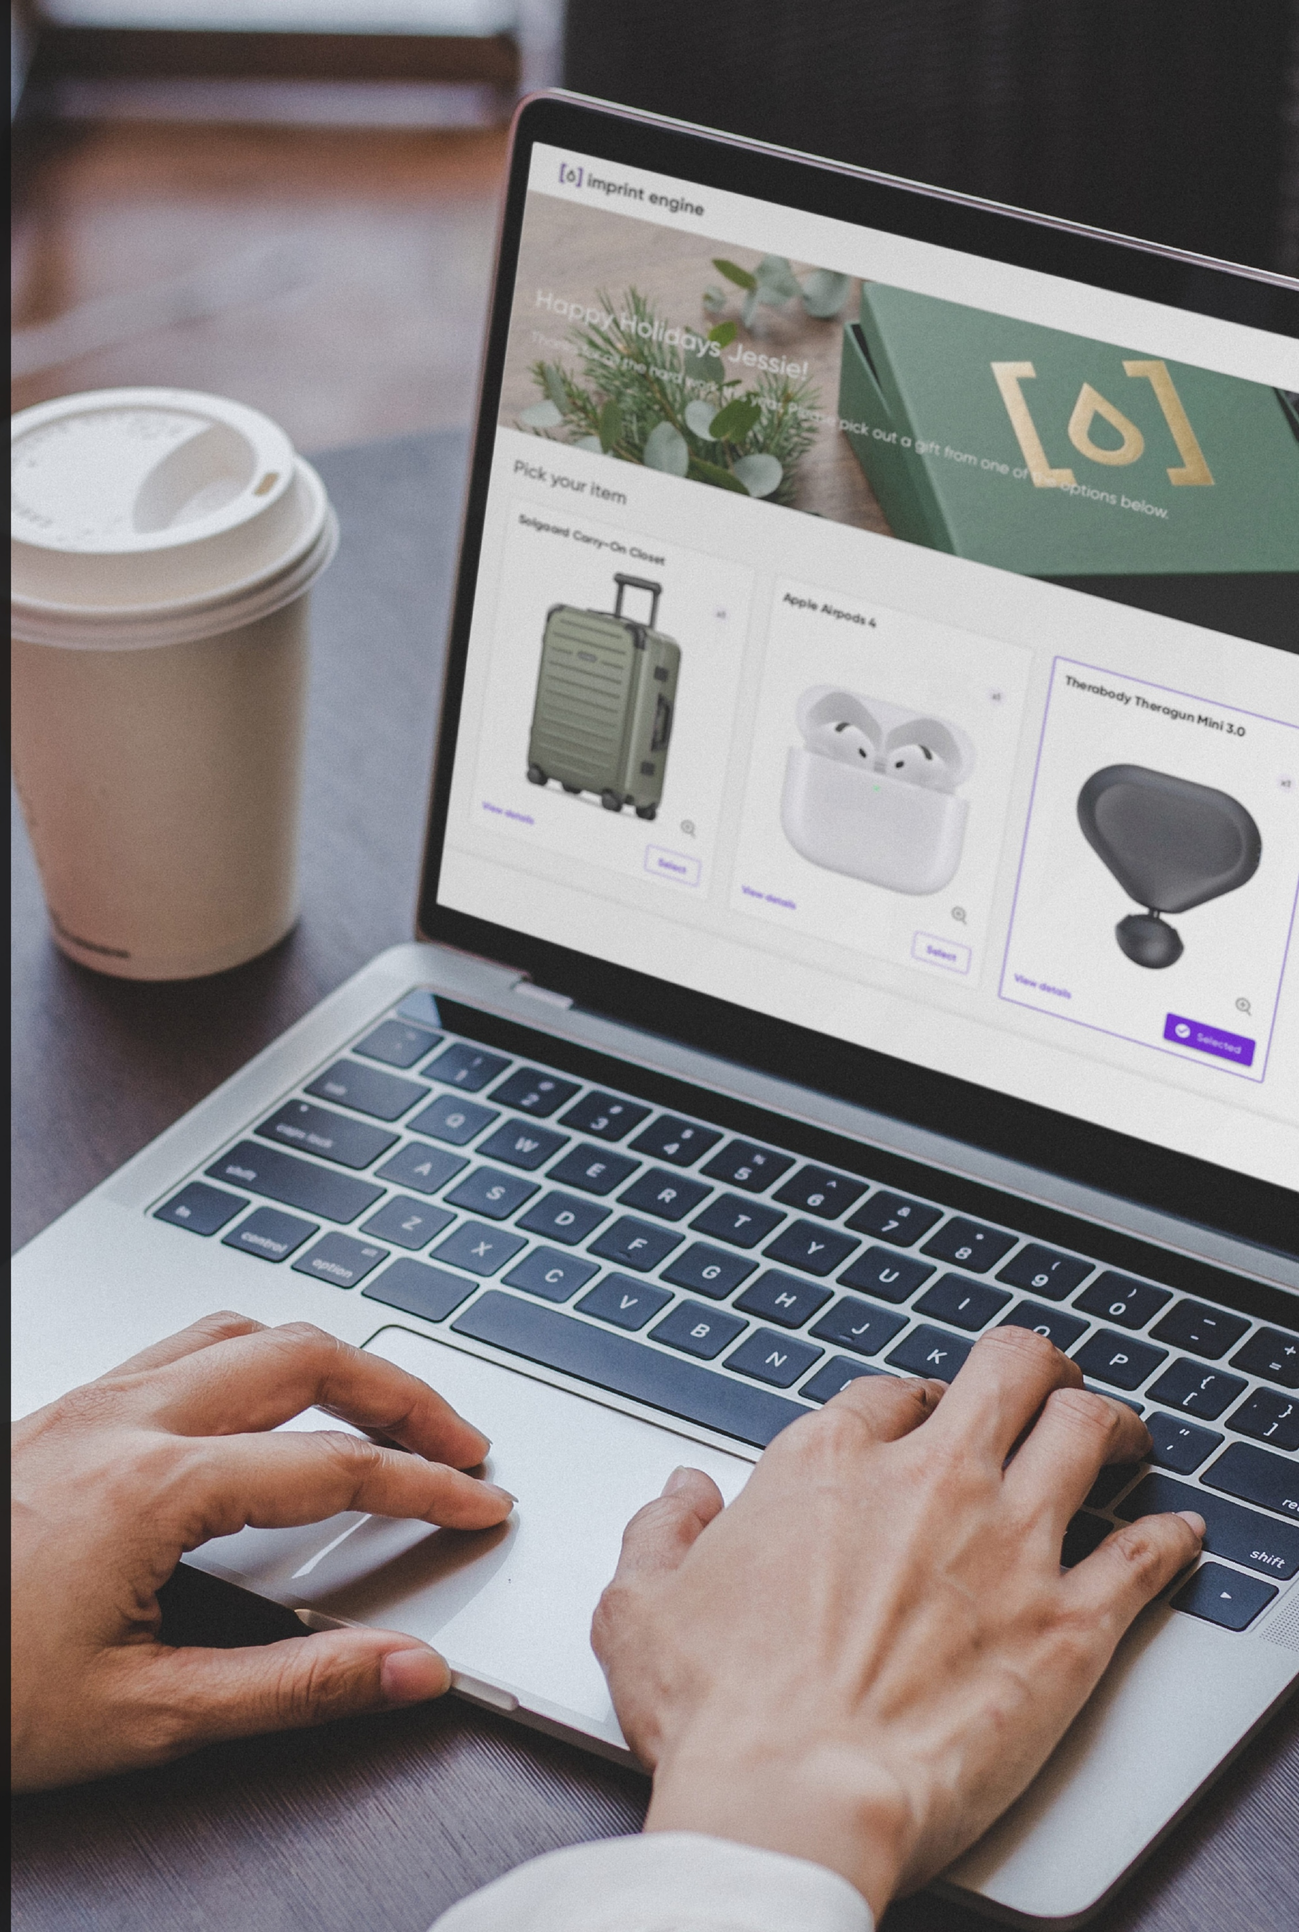

IEX is the platform that allows every product in this catalog to show up right.

- Recipients pick their gift and enter their own address, so you're not chasing sizes or addresses in a spreadsheet
- Regional fulfillment from our own facilities in the US, Ireland, and India
- Delivery to over 180 countries, including shipping, customs, and returns support

Built for December. Useful all year.

New hire kits, work anniversaries, client thank-yous, event kitting. Same platform, no rebuild.

You did it! You made it through one behemoth of a holiday catalog, so pat yourself on the back.

Let’s talk about what comes next. Send us your favorites and we’ll build the actual program around them: sourcing, decoration, packaging, and a link your people can use.

Not quite right? We’ll make something that is. Then we can both stop wondering — would they keep it if nobody sent it?

Let’s go find out early. Your December self says thanks.
